My dearest Lennie

Charlie sent Miss
Parrish (who will forward it)
a long answer to your Committee
letter - in time for your
next Mtg.

I had a long talk with Dr.
Russell yesterday. He
is seriously keen abt
P.A.S. - says they have
4 Elem. Schs. & a Comm. Sch
at Clitheroe & he is Chairman
& it is just the place to work

our scheme in. Poor man,
 he is just recovering from
 a long & anxious illness
 must have his utter rest,
 but I think he will begin at
 once - books are — ^{not} difficult!
 His idea is a Conversation

 immediate conversion of
 everybody, — presto, we begin!
 He seems really to run
 education in Clith.

I have not lately had a vision
 of Mr Lady in her garden - all
 in nerves! but please attend
 upon Hotel - Langammursh. ^{Brecon} ~~South~~
 whither we go on Saturday, & this
 is just a horrid bad illness here
 upon my table. All our Babies - &
 - everything. you know

My dearest Lennie

What a pitchboring pen
from last - & what a sweet vision
did we get of the three lovely lakes!
A really intimate picture.

How I wish we had been here
to see them all & their dear parents.
One moment - close Martin best,
& then Peggy, & then go back
to my first love, Tony, - whereby
I know that they are all equally
lovable, & that is so charming, in
these quite distinct ways - As
you say, what will say they
are not persons - a much as

as ever they will be.

So far we have had our hotel
to ourselves - very restful &
pleasant, the more so as I am
not to begin baths till Sunday.
After that, well, one has not
much energy to spare.

I am sitting under a pine tree
in a lovely garden with a lovely
view. & so far we are the only
guests in this house - very
restful & pleasant. The ~~man~~
Manageress, a quite admirable
person, has met the general way,
which draws guests, but that
most dear & most kind S. H.
saves me from overkindness
& over coldness alike - we put
to our ways. She loves the 3.

you forget. Lancy Miss Ambler
going(?) to Miss Nuttall's school.
Miss M. will no doubt introduce
us to her new school.

How I love to think of you as
your nursery of schools!

I. alas of the Lady in her garden.
I how we loved her appearance
at Highfield - Have you heard
any more from Mr. Baines?

Dear love (4 from Ek)

ever yours

Chs

Have you a snapshot of the trio?
I'll send it back.

dear Dorothea,
 I am so glad to hear from you this summer!
 I hope you are well & happy.
 I have never seen you since
 I left school. I am about 24 years old now.
 I have all your splendid
 works in the school. But I
 have been ill. I am fairly
 mended now but the Dr. will
 not yet let me have the baths
 for which I came so I could
 not have gone to St. Mary in any
 case. You needly all the baths
 have yet to come off.
 I am missing. They gave me quite
 a good year last year so I must
 hope have patience.

How delighted to have 'the boys'
at home on sick leave. Are
the eyes all right yet? & does
Tony have high jannes with his
Daddy? How I should love to
see them together!

I can't picture the lady in
her garden all the time because
we have had torrents of rain here.
All the same, the country is very
pretty but I long for Auntie & Tony
& those dear delightful visits that
made our days gay! & the babies!

You don't know how I long to see
you! Mr. Haversley is immensely
impressed by all he saw. & I
let him see yr letter about the defective
child wh. delights him. I must
kind his letter send it to you.

Dear - Kinne

to Mr. Shaw. But Shaw left - you at
this time without a letter! But - life has
been very full - of letters. accumulated
in the holidays -

I am so glad you went - to see the
party from here - Canon D. is working
very seriously in Birmingham, Carlisle

& other places. It seems to be definitely taking
up the work. Mr. W. B. has only now got
home & tells me that they visited 8 schools,
1 Boys' & seven girls. Miss Cropper too,
writes us on seriously impressed -
but of course when so much ground
was covered it was impossible to write
in great detail after the fashion of one
of your delightful reports -
Of course our dear Miss Ambles (whom

Anyway, dear, our great-work is going
& growing.

E. 14. is now at home & has a big
school at- taking on hand which it hopes
to bring up to the mark - I forgive this
abominable writing - the daylight comes
& the light is on my right-hand!)

I rejoice in your Sheffield friend -
I shall ask you to give an introduction

to her to Miss Brownell (an old student) who
did a good deal there in her summer
holidays, & is to take up the work at Exeter
(perhaps meet Mr. Lishes!) It will be
a great thing for her to find a helper who
lives at Sheffield.

How good about Dorset! I am
regressing in my poor health after
an anxious summer in W. R.
dear F. H. was "a most angelic sent"

We advance - Canon Bensonley has been preaching
what he calls our "Gospel" up & down - at Birmingham
now in Carlisle (where he is in residence) & this
Parish who is coming here for a ~~few~~ few days is
to go there to meet the bps. on Nov. 3rd - Miss Cropper
has been here & is ready to - proclaim! That
nice Mr. Household writes, "The children have
plunged into the wealth of books with a whole
hearted engagement" (the Flouresbury Schools)
Mr. Franklin is shortly to speak to teachers
& inspectors in Dublin. Miss Webb has

visited a convent school in Waterford which is
doing great things - T. + - All this cheers you

labours has not been in vain. - This Parish
more - of all - that dear Mrs Ambles writes
that - she is expecting her 173rd visit within the
two months - she, no less than a professor
from Tokyo Univ. I think with dismay of all
the letters & all the correspondence this implies - but
she uses it for the cause - as we all do.

(who is a capital 'apostle' finds your paper
in her efforts to ~~convince~~? - Shall we ever
have any more from your pen?

but - still subject to - the War.

You never tell me of your anxieties, but
all the same, I will confess mine - e.g. Shall
we have any students for next-year, &
will all the girls run off to War work of some
kind - I don't wonder that - they should but it is
difficult to "carry on" all the same, I am glad to hear of
your loving Chm.

Our two Convent schools, have been left
to work by the Chief Inspectors, & now
under the auspices of the Resident
Commissioner, Mrs. Franklin is
to speak next 10 months to 250
Mrs + authorities in Dublin.

I believe they feel that our
'Ring' may help.

Also, Mrs. Franklin writes
with lyric enthusiasm about
you Mr. Hornby's school which she
has just visited - Also, I
have just read two very fine, if
different, papers from W. W.
Proudhon & Mr. Smith - both of
them hands. I have A E's pamphlet
(from W. W. 4) the best thing I have
seen, thank you dear Mr. Hornby &

 her while she is still young). But she has got us
 your nice Miss Crewshaw - & I am glad that
 she too is a link with those dear W. B. people
 whom I like so much.

I hear that teachers from Clitheroe have been to
 see your good Mr. Bury. (by the way, I am told his teachers
 "adapt" a good deal). That good Mr. Rawnsley has
 been addressing a hundred teachers at - Reigate,
 & some may come in. Canon Rawnsley keeps
 the ball rolling & I think we are 'going'.

 I think of you being
 disabled this Christmas! I hope
 the tiresome Rheumatism is going on all
 right. otherwise, I am not
 sorry you should have a holiday
 from letter writing even tho' I
 suffer from the fact. My anxiety
 is that the more things should

are going to write in the Contemporary?
joining those lovely sketches which
you gave in your several 'Reports'.

I am sure Mr. Stenhal
will agree with me that that sort
of pen service from you will help
the cause immensely. Or,
would you rather write newspaper
articles. They would help even more.

I think I have told you
about Miss Raine's
campaign up here - her second.
Canon Thawley is running

as with might + main.

I must not ask for news
of the Babies or of your mess at
the point or anything because
you must not write, but do
meditate. There's a dear!

I'm a little worried by the
suggestion of a 5 yrs. cycle of programmes.
He looks to be passed from school
to school. Do put your foot on
it if it comes your way -
the scheme as it stands is vital
because like Topsy, it grows, but
every sort of change suggested aims
straight at its vitality - & also at
its central idea, a common curriculum
for all of all classes.
